

XIV Appendix1. MEMS Academy Staff Public Roster *as of November 2012-2013.***Academy State and Regional Directors (ASD & ARD)**

Academy Regional Directors (ARD) No Longer Valid See New Title and description
The regional map will stay in place for administrative purposes only.

Academy Advisory Staff: These Staff Members are appointed by the Commandant or Dep. Commandant. Since the Regional Director have not been productive in this capacity, These staff members will act as mentors and advisors to State Director on an, as need basis. They will act as information and problem solving resources only to ASD's. They answer to the MEMS Academy Command Staff only. **Advisory Staff will no longer be over the State Directors. They are advisors only.**

Academy State Directors (ASD) Are appointed by the State Commanding General or Upon request by the MEMS Commandant, they coordinate and provide logistical support for the MEMS program within a designated state or area. ASDs process applications from their areas and may instruct and/or proctor students. ASDs approve award of MEMS credentials and issue MEMS certificates, i.e., Basic, Senior and Master MEMS, and Flashes.

Special Instructions for ASDs:

You may appoint your own state staff i.e. Dep. State Directors, Instructors, Proctors, and unit representatives. These Staff members must be at least a Senior MEMS. To avoid processing problems in the future these staff members must be approved just like the state directors etc. These staff members should have the authority to certify members at the Basic and Senior MEMS Levels. However, Only the ASD can Certify Master MEMS. Records should not be decentralized. All Certifying Document should be given to the ASD. (**This is an Option for all State Directors**). If you have a successful program in place, don't change it.

Special Note: Those states that have been deactivated will have to go through the Commandant or Dep. Commandant for Certification until they are reinstated, and they are SGAUS members.
